This is a manyatta. It is my home.

My home is in Turkana County.

This is a camel. In Turkana County people keep many different animals. But the camel is very important.

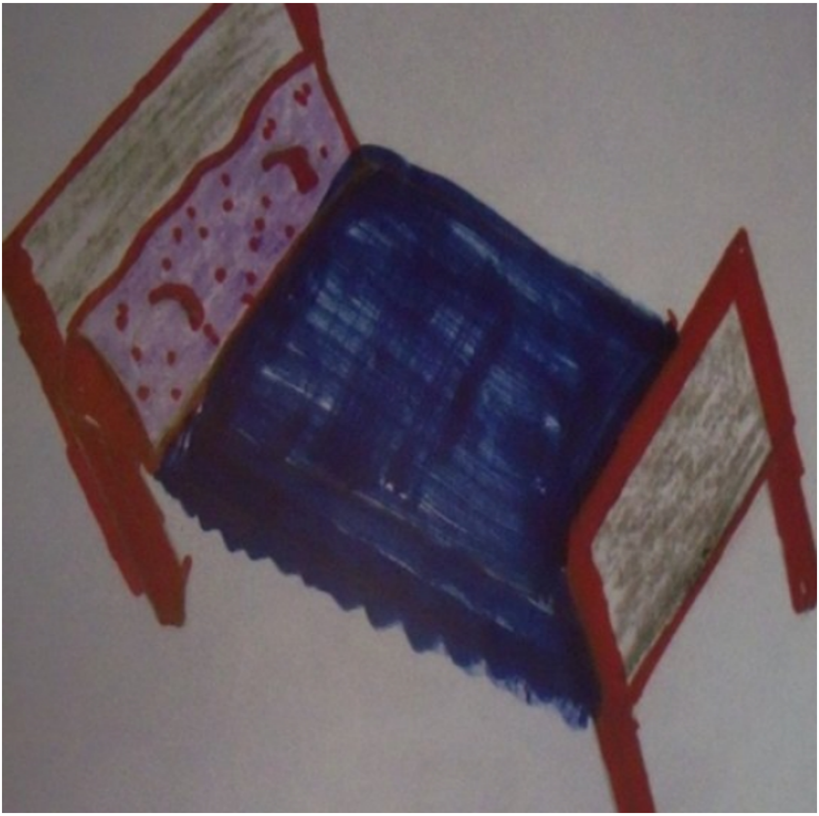

These are my teachers. I like going to school.

My school is called Lolupe Primary School. I like my Art teacher very much.

This is a ship. Ships are big.

They are used to transport people and goods on water. If I go to Mombasa, I can see a ship.

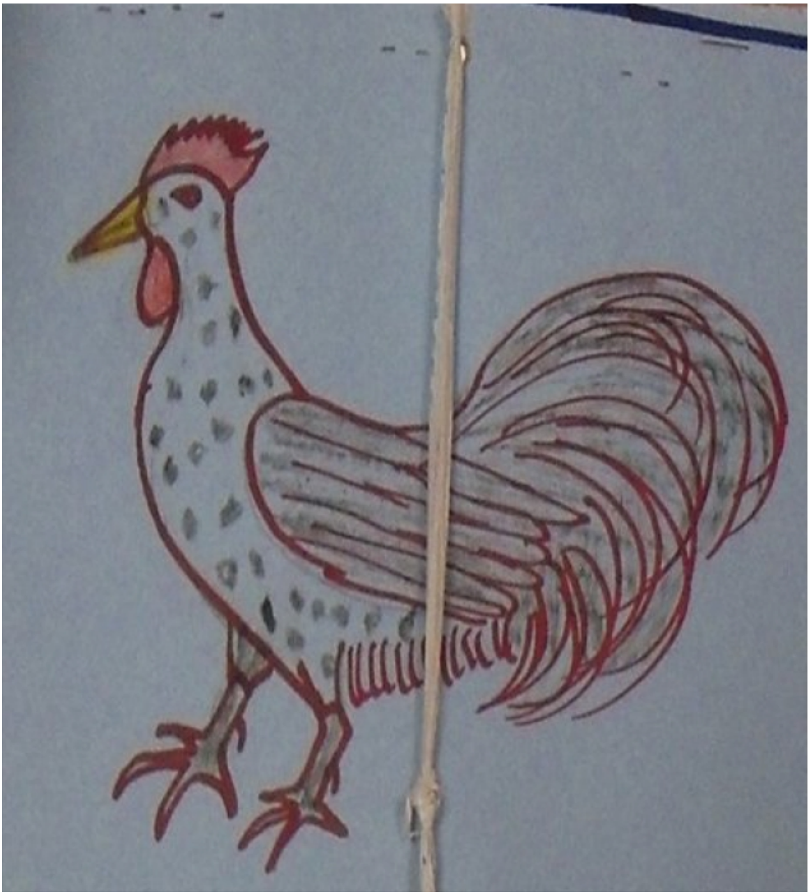

This is a bed. I like the bed that my father made for me.

I share it with my younger brother. It is comfortable.

This is a cock. At home, we have two cocks.

We also have many chickens. The chickens lay many eggs.

This is a mouse. Mice are dangerous animals. They eat food.

They also destroy clothes. They can cause disease.

This is a dog. Dogs are domestic animals.

Our dog is called Daa. He barks a lot.

This is an umbrella. My parents have a big umbrella.

It has red, blue, orange and green colours. When it rains, we use an umbrella so we do not get wet.

I am in class two and I know many things. I want to know many more.

What I do not know, I ask my parents or my teacher.
